CLIENT PRODUCTION GUIDE

Korean Skin Lab Complete Visual Asset Collection Guide

Version 1.0

Photography, video, logos, icons, illustrations and motion only.

Master spreadsheet companion: 610 individual visual asset rows.

No written copy, product descriptions, policies, SEO content or store configuration requested.

1. How to use this guide

Deliver one organized package using the folder structure in Section 16. Every visual slot in the completed storefront is represented here or in the companion master spreadsheet.

[ ] Mandatory = required to replace a launch-critical placeholder.
[ ] Recommended = strongly advised for a premium launch; approved fallback remains possible.
[ ] Optional = adds depth but does not block launch.
[ ] No client file required = the visual is already generated by CSS, code or UI components.
[ ] Do not bake headlines, prices, buttons, badges or other interface text into photography.
[ ] Use the Asset ID as the filename stem and update Status in the spreadsheet.

Delivery recommendation

Item	Requirement
Delivery method	One Google Drive / Dropbox root folder; Frame.io for video review.
Color	sRGB for every web image and video.
Masters	Retain RAW/JPG/MOV masters; also deliver requested web-ready exports.
Permissions	Signed release for every identifiable person in UGC/testimonials.
Manifest	Use the companion XLSX Status and Client Notes columns.

2. Master art direction

Axis	Direction
Lighting	Soft daylight or large diffused source. Avoid harsh hospital-white light.
Grounds	Pearl, canvas white, blush, pale ceramic, linen or quiet natural interiors.
Composition	Editorial restraint, generous negative space, labels readable, no clutter.
Color	Accurate product color and natural skin. No teal/orange grade or beauty filters.
Packshots	Front 3/4, even light, 8-12% margin, consistent framing across every SKU.
Lifestyle	Authentic ritual, soft daylight, minimal props, no clinical before/after style.

3. Global brand visuals

Deliverable	Specification	Priority
Primary / dark / light logos	SVG + transparent PNG; horizontal wordmark	Mandatory
Secondary logo + monogram	SVG + PNG masters	Mandatory / Recommended
Browser / app icons	16, 32, 180 and 512px PNG	Mandatory
Social share visual	1200x630 PNG + WebP; center 80% safe	Mandatory
Loading logo / watermark	Optimized SVG; static source	Recommended / Optional

Deliverable	Specification	Priority
Payment / shipping / social marks	Official SVG artwork	Recommended

4. Homepage visual collection

Area	Assets	Core size
Hero	Primary editorial, floating packshot, square texture	1600x2000 / 800x1000 / 800x800
Trust	5 branded SVG icons	80x80 vector
Featured collections	One card per featured merch/concern handle	1200x960
Skin concerns	Acne, dryness, sensitive, pigmentation, barrier	4:3; 1200x900+
Editorial / story	Authenticity, story preview, Why Korean	4:5 / 5:6
Testimonials / community	3 portraits + 6 square community tiles	1200x750 / 800x800+
UGC widget	Vertical feature video + poster	1080x1920
Newsletter	Optional soft ambient art	1920x1080

Hero images are the highest priority. Produce purposeful mobile crops where listed; do not rely on automated center cropping for campaign-critical subjects.

5. Shop and collection visuals

Collection heroes require separate desktop and mobile deliverables for all 16 live handles.

Visual	Count	Specification
Shop hero	1	2400x1350 desktop + mobile-safe 1080x1350 crop
Category cards	7	1000x800, 5:4
Merch collection cards	3	1200x1500, 4:5
Concern cards	6	1200x1500, 4:5
Collection heroes	16 x 2 crops	2400x1028 desktop + 1080x608 mobile
Product card main / hover	Per product	1600x2000, 4:5

Hero handles: cleansers, toners, moisturizers, masks, sunscreen, bb-cream, eye-care, best-sellers, new-arrivals, bundles, sun-protection, deep-cleansing, dryness-dehydration, anti-aging, pore-minimizer, sensitive-skin.

6. Product photography and video

The current live catalogue contains 10 products plus 2 bundles. The spreadsheet expands every shot type for every handle so the production team can track delivery one asset at a time.

Shot	Priority	Preferred
Primary / packaging front	Mandatory	1600x2000, 4:5
Packaging back	Recommended	1600x2000, 4:5
Texture macro	Mandatory	2000x2500, 4:5

Shot	Priority	Preferred
Hover / secondary angle	Recommended	1600x2000, 4:5
Lifestyle / application / in-hand	Recommended	1600x2000, 4:5
Swatch / ingredient / detail	Recommended	1200px+ / 2000x2500
Side, routine, scale, shelf, flat lay	Optional	See spreadsheet
360 sequence + product video set	Optional	See spreadsheet

Per-product acceptance

[ ] Correct SKU and packaging version.
[ ] Label sharp at card and zoom sizes.
[ ] True color; no beauty filter or excessive retouching.
[ ] Consistent angle, scale and background across catalogue.
[ ] No baked badges, prices, claims or graphical text.

7. About, authenticity and contact

Page	Assets	Priority
Our Story	Story editorial, founder, philosophy, authenticity, science	Recommended
Team / operations	3 portraits; office, warehouse, behind-the-scenes	Optional
Certificates	Up to 4 legible scans / vectors	Optional; only genuine
Authenticity	Hero editorial + verified packaging	Recommended
Real vs Fake	Matched authentic/fake packshots + macro	Recommended
Contact	Store/exterior/interior, map, support illustration	Optional / Recommended

8. Account, cart, checkout and utility visuals

These pages already work without bespoke photography. Branded illustrations elevate empty and error states without changing layout.

Area	Visuals	Priority
Cart / wishlist	Empty bag and wishlist SVG illustrations	Recommended
Account	Orders empty, login, signup, recover, avatar	Optional
Checkout	Trust icons + official payment marks; no hero photo	Recommended
404 / error / offline	Soft, non-alarming status marks	Recommended
Maintenance / coming soon	Optional blush/pearl atmosphere	Optional

9. UGC production brief

Every clip: vertical 9:16, 1080x1920 minimum, 4K preferred, 20-60 seconds, natural light, original audio preferred, no beauty filters, no heavy grading, and multiple useful angles.

Category	Exact quantity	Priority
Morning Routine	3	Mandatory
Night Routine	3	Mandatory
Before Work	2	Recommended
Office Routine	2	Recommended
Travel Routine	2	Optional
Gym Routine	1	Optional
Shelfie	2	Recommended
Routine Explanation	3	Mandatory
Texture Demo	3	Mandatory
Application Demo	3	Mandatory
Close-up Application	2	Recommended
Reaction	2	Recommended
First Impression	2	Recommended
7 Days	2	Recommended
14 Days	1	Optional
30 Days	2	Recommended
Favourite Products	2	Recommended
SPF Application	3	Mandatory
Mask Routine	2	Recommended
Hydration Routine	2	Recommended
Double Cleansing	2	Recommended
Unboxing	3	Mandatory
Packaging Detail	2	Recommended
Delivery Experience	2	Recommended

Total requested UGC video bank: 53 clips, each with one matching poster frame.

10. Testimonial visuals

Prepare six customer folders. Portrait is recommended for each. Video, before/after, routine and shelf images are optional. Every identifiable person requires a recorded permission status.

Asset per customer	Specification	Requirement
Portrait	1200x1500, 4:5, natural daylight	Recommended
Video	1080x1920, 9:16, 20-60 sec	Optional
Before + after	Matched camera, light and framing; unretouched	Optional
Routine photo	1200x1500, 4:5	Optional

Asset per customer	Specification	Requirement
Shelf photo	1200x1200, 1:1	Optional
Release	Signed website / paid media permission	Mandatory if visual supplied

11. Product video direction

Type	Duration	Direction
Packaging reveal	10-20 sec	Clean reveal; label readable
Texture macro	10-20 sec	Locked macro; honest finish
Application	15-30 sec	Correct amount and method
Routine / lifestyle	20-45 sec	Calm real-world ritual
Ingredient	10-20 sec	Simple still-life; no unsupported claims
360 rotation	8-15 sec	Seamless square loop
Comparison	10-20 sec	Scale or variants; equal setup

12. Animation assets

Current hover, scroll, drawer, reveal, skeleton and focus motion is code-generated and production-ready. The client should not produce GIFs, Lottie files or cursor effects for launch.

Motion	Client file?	Decision
Page/section reveals	No	Existing Framer Motion
Card hover / image zoom	No	Existing CSS
Skeleton shimmer	No	Existing CSS
Drawers / modals / rails	No	Existing UI code
Optional loading Lottie	Optional	JSON <=150KB
Optional background loop	Optional	6-10 sec, muted, <=10MB

13. Image and motion file specifications

Format	Best use	Compression / max	Resolution	Color	Alpha
PNG	Logos / icons	Lossless; <2MB	Exact or 2x	sRGB	Yes
JPG	Photo masters / fallback	q82-90; web <500KB	Listed pixels+	sRGB	No
WebP	Storefront photography	q76-86; <400KB typical	Listed pixels+	sRGB	Yes
SVG	Logos / icons / illustrations	Optimized; <200KB	Vector	sRGB values	Yes
GIF	Avoid; simple fallback only	<3MB	<=1080px	sRGB	Yes
MP4 H.264	Primary web video	CRF 20-23; <=40MB	1080p / 4K master	Rec.709	No

Format	Best use	Compression / max	Resolution	Color	Alpha
WebM	Secondary web video	VP9/AV1; <MP4	1080p+	Rec.709	Yes
MOV	Production master	Mezzanine/master	4K preferred	Rec.709	Codec
JSON Lottie	Optional vector motion	<150KB; no raster	Vector	sRGB values	Yes

14. Folder structure

15. Naming convention

[asset-id]_[WxH].[extension]

Correct	Use
hero-lux-primary_1600x2000.webp	Homepage hero
collection-hero-best-sellers-desktop_2400x1028.webp	Collection desktop hero
product_escargot-original-facial-repair-cream_main_1600x2000.webp	Product main
ugc_morning-routine_01_1080x1920.mp4	UGC clip

16. Master folder and delivery checklist

[ ] 01 Brand assets: logo variants, monogram, favicons and app icons.
[ ] 02 Homepage: hero set, trust icons, collection/concern cards, editorial, story, community.
[ ] 03 Products: mandatory packshots and texture for every product handle.
[ ] 04 Collections: desktop + mobile heroes for all 16 handles.
[ ] 05-06 About and Contact: selected recommended/optional visuals.
[ ] 07 UGC: exact video quantities + matching posters + releases.
[ ] 08 Testimonials: customer folders + permission status.
[ ] 09 Product videos: selected product-level clips.
[ ] 10 Icons: trust, payment, shipping, social and optional badges.

[ ] 11 Animations: only optional Lottie/loop if commissioned.
[ ] 14 Certificates: verified, current visual proofs only.
[ ] 00 Manifest: spreadsheet Status and Client Notes completed.

17. Final acceptance checklist

[ ] Every Mandatory spreadsheet row is Delivered or marked Agency-approved Not Applicable.
[ ] Every file name starts with the exact Asset ID.
[ ] Dimensions and aspect ratios match the spreadsheet.
[ ] All raster files are sRGB.
[ ] No prices, headlines, buttons or unsupported claims are baked into imagery.
[ ] Product labels and packaging colors are accurate.
[ ] UGC/testimonial permissions are recorded.
[ ] No beauty filters or heavy color grading.
[ ] No visual relies on a crop that removes the product, face or key detail.
[ ] RAW/JPG/MOV masters are retained in the delivery package.

After this visual package is accepted, no additional visual request should be needed before integration, staging QA and production deployment.
