Phase 12B — Final Design QA & Brand Consistency Audit

Brand: Korean Skin Lab
Scope: Full-storefront Creative Director review (no new features, no redesigns)
Brand kit source of truth: Power Pink `#E8006F`, Canvas / Blush / Pearl / Pink Mist, Ink `#2A1A22`, Cormorant + Poppins, radii 24px card/button · 20px badge, shadows `elev1–3`, motion 200 / 280 / 320ms (+ reveal ≤640ms)

Review team lens: Creative Director · Senior UI · Senior UX · Brand · Shopify Plus · Accessibility · Frontend · QA

Executive summary

The storefront already presents as a coherent luxury Korean skincare system. Phase 12B identified **contrast, token drift, touch-target, and motion/a11y consistency** issues. Highest-severity defects were **fixed in this pass**. Remaining items are mostly photographic placeholders, content length on About/education pages, and Shopify-live dependencies (UGC, maps, checkout).

Score	Result
Final design quality	**8.4 / 10**
Brand consistency	**8.7 / 10**
Responsive quality	**8.2 / 10**
Accessibility	**8.0 / 10**
Production readiness (visual/UX)	**8.1 / 10**
Production readiness (commerce launch)	**~5.5 / 10** *(Shopify not connected — out of scope for design QA)*

Fixes applied in this phase

ID	Issue	Severity	Recommended fix	Fix applied
F1	Skin concern cards: white type on light blush placeholders	**High**	Ink typography + light panel scrim until dark photos	**Yes** — `HomeSkinConcerns` ConcernCard
F2	Collection cards: custom 30px radius + off-token shadows	**High**	Brand `rounded-card` + `shadow-elev*`	**Yes** — `CollectionCard`
F3	Cart checkout CTA: hand-rolled gradient `#c4005c`	**High**	Use shared `Button` primary	**Yes** — `CartSummary`

ID	Issue	Severity	Recommended fix	Fix applied
F4	Announcement link hover → pink-mist on pink-mist (invisible)	**High**	Hover to Power Pink + focus ring	**Yes** — `AnnouncementItem`
F5	Chip: no focus-visible; 36px hit area	**High**	Focus ring + `min-h-11` when interactive	**Yes** — `Chip`
F6	Product card ATC hidden on laptop until hover	**High**	Always visible actions	**Yes** — `ProductCard`
F7	Product “View details” below 44px	**High**	Keep Button `size="sm"` min height	**Yes** — `ProductCard`
F8	Product description used muted (low contrast body)	**Medium**	Use `foreground-secondary`	**Yes** — `ProductCard`
F9	Cart qty / remove controls 40px	**High**	Raise to 44px (`h-11`)	**Yes** — `CartLineItem`
F10	Cart thumbs / upsell: arbitrary 16–18px radius	**Medium**	`rounded-badge` (20px)	**Yes** — `CartLineItem`, `CartUpsell`
F11	Trust strip ad-hoc bottom padding	**Medium**	Use Section `spacing="default"` only	**Yes** — `HomeTrustBadges`
F12	Newsletter submit bypassed Button	**Medium**	Shared `Button` + loading	**Yes** — `HomeNewsletter`
F13	Drawer open/close ignores reduced motion	**Medium**	`motion-reduce:animate-none`	**Yes** — `drawer.tsx`
F14	Collection/concern image zoom `duration-700`	**Medium**	`duration-320`	**Yes**
F15	Cart empty title `h3` without parent `h2`	**Low**	Promote to `h2`	**Yes** — `CartEmpty`
F16	Product skeleton pulse ignores reduced motion	**Low**	`motion-reduce:animate-none`	**Yes**

Issues found (full audit ledger)

High

ID	Area	Issue	Recommended fix	Status
H1	Home · Skin Concerns	White text over light placeholders	Light scrim + ink type (or dark `imageTone` when photos land)	**Fixed**

ID	Area	Issue	Recommended fix	Status
H2	Commerce · CollectionCard	Off-kit radius/shadows	Align to Brand Kit card tokens	**Fixed**
H3	Cart · Checkout CTA	Off-token pink + custom CTA	Use `Button` primary	**Fixed**
H4	Header · Announcement	Hover washes into background	Power Pink hover	**Fixed**
H5	UI · Chip	Missing focus + small touch	Focus + 44px interactive	**Fixed**
H6	Commerce · ProductCard	Hover-only ATC on laptop	Always show ATCs	**Fixed**
H7	Commerce · ProductCard	Shrunk text CTA hit target	Restore min height	**Fixed**
H8	Cart · Line qty	Controls < 44px	`h-11`	**Fixed**
H9	About · Structure	Very long alternating lux/default stack + three empty team cards	Collapse bands; hide team until portraits exist	**Open** *(content/IA polish — no redesign this phase)*

Medium

ID	Area	Issue	Recommended fix	Status
M1	Home · Trust	Spacing token overridden	Section spacing only	**Fixed**
M2	Home · Newsletter	Custom submit button	Shared Button	**Fixed**
M3	Drawer	Motion ignore `prefers-reduced-motion`	Gate animations	**Fixed**
M4	Cards · Motion	700ms / 480ms zooms	Prefer 320ms	**Partially fixed** (collection/concern); ProductCard still uses `duration-480`
M5	Home · Hero floats	Continuous 6–7s ambient loops	Prefer lighter ambient or static when photos land	**Open** (gated by `useReducedMotion`)
M6	Home · Spacing rhythm	Many consecutive `lux` sections	Alternate tight/default/lux lightly	**Open** (refine later)

ID	Area	Issue	Recommended fix	Status
M7	Cart / Filter drawers	Width drift (22–28.5rem)	Named drawer size tokens	**Open**
M8	Search chips / CollectionNav	Some controls still < 44px	Align to Chip/Button sm	**Open**
M9	Community / UGC / PDP gallery	Inert empty placeholder mosaics	Gate behind real media	**Open** (asset phase)
M10	Errors · SegmentError	Feels like inline alert, not utility page	Match 404 hierarchy	**Open**
M11	Wishlist	Duplicate ATC chrome under ProductCard	Wishlist-specific actions	**Open**
M12	Real vs Fake / About	Long educational stacks feel dense	Band consolidation when content edited	**Open**
M13	Embla carousels	Drag not disabled for reduced-motion	Prefer buttons-only when reduced	**Open**

Low

ID	Area	Issue	Recommended fix	Status
L1	Cart empty heading level	`h3` → `h2`	Hierarchy	**Fixed**
L2	Skeleton pulse	Reduce motion	**Fixed**	
L3	Footer links	No min-height on mobile	`min-h-11`	**Open**
L4	CountBadge `rounded-full`	Prefer badge radius	Optional	**Open**
L5	Celadon naming leftovers	Prefer Power Pink aliases in new UI	Incremental	**Open**
L6	Micro type `text-[0.65rem]`	Prefer `text-caption`	Incremental	**Open**
L7	Contact map placeholder	Large empty block	Shrink until Maps live	**Open**
L8	PDP zoom “coming soon” chrome	Hide until implemented	**Open**	
L9	404 empty icon box	Pass illustration or omit	**Open**	
L10	Policies	Intentional typography-only	Keep	**OK**

ID	Area	Issue	Recommended fix	Status
L11	Checkout	Shopify-hosted	Admin branding only	**OK**
L12	Skeleton placeholders	CSS shimmer (correct)	Keep	**OK**

Dimension scores (detail)

Brand consistency — **8.7 / 10**

Strengths: Single palette; Cormorant/Poppins; Power Pink CTAs; `rounded-card` / `Button` system; no purple/indigo drift.
Gaps: Residual arbitrary radii, celadon aliases, a few custom shadows. High-token drift on collection/cart **fixed**.

Visual hierarchy — **8.3 / 10**

Strengths: Hero `h1`, Power Pink overlines, display italic section titles, clear secondary body after fixes.
Gaps: Some section titles use `text-h1` visually while remaining `h2` (acceptable); muted gray overused for body in places (partially fixed).

Spacing / rhythm — **8.0 / 10**

Strengths: `Section` tight/default/lux tokens; Container content/narrow widths.
Gaps: Homepage lux stacking; About length; trust padding now normalized.

Responsive — **8.2 / 10**

Strengths: Tablet/laptop/desktop screens; drawers full-bleed mobile; safe-area shell.
Gaps: Touch targets in search/collection nav; drawer width variants; no critical overflow found in app shell.

Motion — **8.1 / 10**

Strengths: Button/`Reveal` honor reduced motion; drawers now gated; luxury ease curve used.
Gaps: Hero continuous floats; some Framer 0.55–0.75s entrances; Embla reduced-motion.

Accessibility — **8.0 / 10**

Strengths: Dialog drawers, labelled sections, form errors/alerts, focus rings on primary controls.
Remaining: Chip fixed; announcement hover fixed; concern contrast fixed; footer/nav minor hit areas; muted text still used for captions (by design — keep for captions only).

Performance — **8.3 / 10** (visual surface)

Strengths: Dynamic imports on home closing sections; MediaImage lazy by default; LCP priority on heroes; GPU transforms.
Watch: Multiple Framer home sections + Embla — acceptable; photography will dominate LCP once wired. CLS risk remaining is primarily placeholder → image swap (use intrinsic aspect + blur LQIP in Phase 12 asset wire-up).

Page-by-page verdict

Page	Verdict	Notes
Homepage	**Pass with notes**	Concern contrast fixed; lux stacking optional refine
Shop / Collections	**Pass**	Cards now token-aligned; heroes await photography
Product Page	**Pass with notes**	Hide UGC/zoom chrome until live
Routine Builder	**Pass**	Interaction clear; illustrations pending
About	**Needs content prune**	Empty team portraits; long stack
Authenticity / Real vs Fake	**Pass with notes**	Educational density high
Journal	**N/A route**	Specced in 12A; not mounted
Contact	**Pass**	Map placeholder large
Search	**Pass with notes**	Chip touch sizes
Wishlist	**Pass with notes**	Duplicate actions
Cart drawer / page	**Pass**	QA fixes applied
Checkout	**External**	Shopify Admin branding
Account	**Pass**	Reuses product thumbs
FAQ / Policies	**Pass**	Typographic — correct
404 / errors / empty	**Pass with notes**	Soften SegmentError presentation
Utilities (offline, maintenance, coming soon)	**Pass**	Marks pending SVG

Final standard check

Perception goal	Status
Premium quality	**Met** after token + CTA fixes
Trust	**Met** (trust strips, authenticity paths)
Luxury	**Met** (editorial type, calm motion)
Scientific credibility	**Met** on authenticity / ingredients surfaces
Authenticity	**Met** (dedicated pages; placeholders remain)
Modern Korean skincare	**Met** (palette + mood; photos will seal it)

Recommended next steps (not Phase 12B scope)

1. **Phase 12A** → **shoot** and wire `imageSrc` / `imageTone`
2. Light **About / Real vs Fake** content banding (editor, not redesign)
3. Gate empty UGC / team / map / community mosaics until assets exist
4. Align remaining ProductCard `duration-480` and search chip hit areas
5. Connect Shopify for commerce production score ≥ 9

Sign-off

Phase 12B design QA pass is **complete for launch polish of the current experience**.
Critical brand/contrast/a11y defects identified in audit are **fixed**.
Remaining opens are tracked above as Medium/Low and do not block a design-system sign-off — they block "perfect photography launch" and "Shopify commerce go-live," which are separate phases.

Creative Director judgment: The site reads as one brand. With photography and Shopify, it is ready to feel like a real international luxury K-beauty storefront.
